

Teacher's Work Day

Teachers are required to be at the school 1/2 hour before school starts and to remain 1/2 hour after school closes, with exceptions for Friday and days preceding holidays. On these days teachers may leave after the buses have gone. If an emergency occurs and a teacher must be late, the teacher will notify the superintendent or the principal. The teacher's workday begins with arrival at school. Each teacher is expected to make themselves available to students during the half-hour periods before and after school to give whatever help or assistance may be needed or requested by a student. All teachers are required to be in their classroom or work station 15 minutes prior to the start of classes. It is recommended that any teacher hired 50% or more shall receive prep time, if the schedule allows.
